

V-STREAM®
Fly The Private Experience **AVIATION**
SALES AND MANAGEMENT

Background

The V-Stream Aviation team combines 150 years of experience in aviation - from flying fighter jets in the Air Force to operating a private jet company.

V-Stream Aviation's experience in safety standards above the industry is a testament to the company's commitment to providing safe and reliable aviation services to our clients. By adhering to higher safety standards, V-Stream Aviation can provide its clients with the peace of mind that comes with knowing they are flying with a company that takes safety seriously.

This can be particularly important for clients who may be traveling for business or personal reasons and want to ensure that they arrive at their destination safely.

Transition in 2020

Since the pandemic hit back in 2020, many individuals, organizations, and governments have been forced to adapt to new ways of life. This has led to an increase in business innovations. We have developed two programs that aim to address some of the challenges presented by the pandemic.

Our Programs Since 2020

Aircraft sales and management program

This program is designed for individuals and companies who are interested in buying or managing aircraft. With this program, clients can browse through a range of different aircraft options and get guidance on the best choice for their needs. Additionally, the program offers aircraft management services, which can help clients ensure that their aircraft is well-maintained and in compliance with regulations.

The program can be particularly useful for companies that need to frequently travel for business, as owning an aircraft can provide a level of convenience and flexibility that is not available with commercial flights. It can also be useful for individuals who enjoy private air travel for personal reasons.

Our Programs Since 2020

Fly private - book by the seat program

This program is designed for individuals who are interested in flying privately but don't want to bear the full cost of chartering an entire aircraft. With this program, clients can book individual seats on pre-scheduled flights that are operated by private aircraft.

This program can be particularly useful for people who need to travel to destinations that are not well-served by commercial airlines or who want to avoid the crowds and potential exposure to illness that can come with commercial air travel. Additionally, by booking only the seats they need, clients can save money compared to chartering an entire aircraft.

Our Programs Since 2020

Overall, both programs offer unique benefits to clients who are looking for private air travel options. The aircraft sales and management program provides a full-service approach to aircraft ownership and management, while the book-by-the-seat program allows individuals to experience private air travel on a more affordable basis.

Why V-Stream

Safety: As previously mentioned, V-Stream Aviation has experience in safety standards above the industry. This means that the company takes safety seriously and has implemented additional measures to ensure the safety of its passengers and crew.

Unique programs: V-Stream Aviation offers two unique programs, aircraft sales and management and book by the seat, which provide clients with options that may not be available with other private aviation companies.

Easy booking: V-Stream Aviation's booking process is straightforward and hassle-free. Clients can book their flights online or through the company's mobile app, making it easy to schedule travel at their convenience.

Why V-Stream

Zero membership fees: Unlike some other private aviation companies, V-Stream Aviation does not require clients to pay membership fees. This means that clients can enjoy the benefits of private air travel without having to commit to a long-term membership.

Great services: V-Stream Aviation is committed to providing its clients with exceptional service. From the moment a client books a flight to the time they arrive at their destination, the company strives to ensure that every aspect of the travel experience is as enjoyable and stress-free as possible.

Pet-friendly: V-Stream Aviation understands that pets are often considered part of the family and welcomes well-behaved pets onboard its aircraft. This means that clients can travel with their furry friends without having to worry about leaving them behind.

Thank You

V-Stream Aviation offers a compelling package of safety, unique programs, easy booking, zero membership fees, and great services that make it a great choice for anyone looking for private air travel options.
